

## Where Colleagues Collaborate

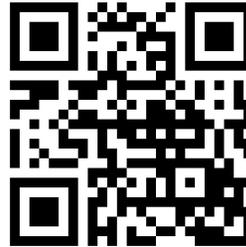

Getting involved with ATD Greater Cleveland is a great way to grow further, develop skills and relationships, and stay abreast of the latest trends within the workplace learning and performance arena. Here's what some of our members have to say:

*I joined ASTD\* because I wanted to transition into the Training & Development field after a career as a middle school teacher. I knew that in addition to some great educational opportunities, they offered local chapter meetings where I would be exposed to current T&D issues and be able to network with other professionals. It was through that networking that I was actually referred for my current position! - Training Coordinator*

*Becoming a member of Greater Cleveland ASTD\* was the best move I made when I broke into the field of training & development. The opportunities for professional development and networking are unparalleled and without a doubt, have helped me get to where I am in my career as a trainer and instructional designer. - Training Specialist*
